

## System Capabilities

- ✓ Cross Portfolio/Site Operation & Visibility
- ✓ Open Protocol Integration
- ✓ Multi User/Multi Role Capabilities
- ✓ Remote System Adjustment Hub
- ✓ Adaptive Carbon Intensity Modelling (Acim)
- ✓ Native Energy & Carbon Reporting
- ✓ API/SFTP Integration & Data Export
- ✓ User Mobile Interface & Well-Being Applications
- ✓ Automated Plant Performance Testing & Reporting
- ✓ Advanced Configurable Formula & Edge Based Cascaded Queries/Rules
- ✓ Securely Encrypted Plug & Play Wireless Sensor/Actuator Integration
- ✓ Securely Encrypted Plug & Play
- ✓ Edge Computing
- ✓ Chart Overlays
- ✓ Fully Configurable Charting & Metering Interfaces
- ✓ Advanced Asset Management
- ✓ AI & ML Information Handling
- ✓ Autonomous System Write/Optimisation Technology
- ✓ Energy/Cost Reporting & Management
- ✓ Alarm & Notification Generation & Management
- ✓ 3D Graphics
