

CONSOLIDATING YOUR Healthcare Network

Secure, Scalable Connectivity for Expanding Healthcare Networks

As NHS organisations evolve, the IT landscape becomes fragmented and difficult to manage. Legacy infrastructures, siloed systems, and inconsistent security protocols across locations can slow integration, increase risk, and strain already stretched IT teams.

The challenge

- 1 Lack of visibility
- 2 Limited agility
- 3 Loss of control
- 4 Increased cost
- 5 Difficult to scale
- 6 Security risks
- 7 Inconsistent performance
- 8 Hard to troubleshoot

The solution

Cloud Gateway offers a unified approach to securely connect new sites, remote access services (RAS), cloud environments, and security layers under one roof - allowing healthcare organisations to expand rapidly without compromising performance, control, or compliance.

- 1 Full visibility
- 2 Enhanced agility
- 3 Total control
- 4 Optimised cost
- 5 Effortlessly scalable
- 6 Robust, consistent security
- 7 Reliable performance
- 8 Fully managed
