DoubleTree by Hilton Hull

Three streams. Two days. One shared conversation.

CONVENZIS

BRITISH SOCIETY OF PAEDIATRIC RADIOLOGY

WELCOME

# Welcome to Hull

From the Conference President

## Dr David Horton

Conference President

The BSPR is very dear to me. I served on the Executive Committee for 12 years, as member, treasurer, secretary, webmaster and president, often at the same time.

Through these years, it was always made apparent to me that I was the only one who had not hosted an annual meeting. As a lone paediatric radiologist, I knew I could not do the meeting justice all by myself, and I so wanted the city I loved to have a fair shout.

Well, now we can. And now we are.

In the style typical of this quirky, independent, eastward-looking city on the edge of the UK, we have lifted our sights and gathered a wonderful international panel to bring you an informative, engaging and entertaining meeting.

We are Hull. Welcome to our place. Make yourselves at home.

DoubleTree by Hilton Hull | 24 Ferensway, Hull, HU2 8NH

WELCOME

# People. Places. Possibilities.

From the Conference Director

## Prof Dr Ram Senasi

Conference Director

Dear Colleagues and Friends,

Welcome to Hull!

When we first imagined BSPR Hull 2026, our ambition was simple: to create something a little different. A meeting that celebrates our specialty, challenges conventional thinking and, most importantly, brings people together.

Three streams. Two days. One shared conversation.

We've gathered an extraordinary international faculty and created a programme that goes beyond clinical excellence, embracing education, research, leadership, innovation and wellbeing. Because paediatric radiology is about more than interpreting images. It's about the children we care for, the colleagues who inspire us and the relationships we build along the way.

With 66 scientific abstracts submitted, I'm particularly proud of the enthusiasm for research and improvement across our community. Thank you to everyone who has contributed and shared their work.

To David, thank you for your friendship, trust and belief that Hull deserves its moment. To our organising team, faculty, volunteers and industry supporters, thank you for making this possible. And to HEY! Hull, Hull's Angels and American Chip Spice, thank you for bringing a little of Hull's unique character to our meeting.

My hope is that you leave having learned something new, challenged an assumption, made a friend or discovered an opportunity.

Because long after the lectures are over, what stays with us is often not what appeared on the screen, but the people we met and the conversations we shared.

People. Places. Possibilities.

Welcome to BSPR Hull 2026.

**Lead & Inspire**

Leadership, global collaboration and advanced imaging.

**Educate & Empower**

Practical fundamentals and emergency imaging.

**Enrichment & Innovation**

Masterclasses, careers, research and fresh ideas.

PROGRAMME / DAY 1

# Thursday 5 November

Morning | Foundations, practice and global insight

| | |
|---|---|
| **08:30** | Registration & breakfast welcome |
| **09:00** | Main Foyer welcome \| Prof Dr Ram Senasi and David Horton |
| **09:15** | Move to stream rooms |

## 01 Lead & Inspire

Stream lead: David Horton

**09:30-10:15**

**Global perspectives in paediatric imaging: challenges and innovation**

Chair: David Horton; Bernard Laya, Joanna Kasznia-Brown, Mehvish Zahra Alavi

**10:15-10:40**

**Keynote: RCR in the 21st century**

Stephen Harden

## 02 Educate & Empower

Stream lead: Michael Roberts

**09:30-10:40**

**Neuro: from embryology to MRI**

Adam Davies

## 03 Enrichment & Innovation

Stream lead: Meghana Menon

**09:30-10:15**

**Masterclass: radiology reasoning**

Hamzaini Abdul Hamid

**10:15-10:40**

No scheduled session

| | |
|---|---|
| **10:40** | Coffee break |

**11:20-12:10**

**Suspected physical abuse: our role in safeguarding**

Chair: Amaka C Offiah; Rick van Rijn, Thomas Hulme, Timothy Cain

**12:10-12:30**

**A personal journey: Healthcare in Colombia**

Enrique Havinga

**11:20-12:30**

**Case-based interesting cases**

Meghana Menon

**11:20-12:00**

**Masterclass: brain tumours**

Kish Mankad

**12:00-12:30**

**Academia and fellowships in radiology**

Prof Dr Ram Senasi and Clare Rainey

| | |
|---|---|
| **12:30** | Lunch & networking \| Afternoon stream timings: page 5 |

All times are local. Stream rooms will be signposted on site. Afternoon programme: page 5.

PROGRAMME / DAY 1

# Thursday 5 November

Afternoon | Leadership, clinical practice and career development

## 01 Lead & Inspire

**13:30-14:15**

**Why should I still be an RCR member?**

Chair: Prof Dr Ram Senasi; Stephen Harden, Amaka C Offiah, Joanna Kasznia-Brown

**14:15-15:00**

**Planetary health in radiology: rethinking how we image**

Chair: Michael Jackson; Clare Rainey, Sivakumar Manickam, Bernard Laya

**15:00-16:00**

**AI in paediatric imaging: promise or reality?**

Chair: Sivakumar Manickam; David Horton, Jaishree Naidoo, Kish Mankad

## 02 Educate & Empower

**13:30-14:15**

No scheduled session

**14:15-15:00**

**Chest fundamentals**

Timothy Cain

**15:00-16:00**

**Emergency imaging: what keeps me up at night**

Samantha Negus

## 03 Enrichment & Innovation

**12:30-14:15**

No scheduled session

Lunch from 12:30

**14:15-15:00**

**Leadership journey**

Mehvish Zahra Alavi, featuring Amaka C Offiah

**15:00-16:00**

**Townhall: the road to consultancy**

Trevor Gaunt and Tejas Kapadia

| | |
|---|---|
| **16:00-17:00** | BSPR Annual General Meeting \| Members only |
| **17:00** | End of Day 1 |
| **19:30** | BSPR 2026 Global Street Feast \| DoubleTree by Hilton Hull |

Gala tickets: £50 + VAT. Booking details and welcome from Michael Roberts: page 19.

PROGRAMME / DAY 2

# Friday 6 November

Morning | Collaboration, skills and future practice

**08:15** Registration & breakfast welcome

**08:50** Move to stream rooms | Sessions begin at 09:00

## 01 Lead & Inspire

**09:00-09:40**
### WFPI global collaboration roundtable
Chair: Joanna Kasznia-Brown; Timothy Cain, Hamzaini Abdul Hamid, Jaishree Naidoo, Kish Mankad

**09:40-10:20**
### Future Radiologist panel
Chair: Trevor Gaunt; Bernard Laya, Jaishree Naidoo (provisional), Mehvish Zahra Alavi, Enrique Havinga

**10:40-11:20**
### Advanced clinical perspectives in neuroimaging
Kish Mankad

**11:20-13:00**
### Scientific papers
Chair: Meghana Menon. Judges: Amaka C Offiah, Samantha Negus and Bernard Laya

## 02 Educate & Empower

**09:00-09:40**
### Body tumour and mimics: misses and tricks
Tejas Kapadia

**09:40-10:20**
### Paediatric head and spine trauma
Hiten Joshi

**10:40-11:20**
### Neonatal fundamentals, part 2: chest
Sivakumar Manickam

**11:20-12:00**
### MSK fundamentals
Rick van Rijn

**12:00-13:00**
### Emergency imaging: what I pick the phone up for
Michael Jackson

## 03 Enrichment & Innovation

**09:00-09:35**
### Leadership without the title: how radiologists can make a difference
Giedre Kavaliauskiene

**09:35-09:45** Short break

**09:45-10:20**
### The image beyond the image
Sivakumar Manickam

**10:40-11:20**
### Women in leadership
Wajiha Arshad, Jaishree Naidoo, Joanna Kasznia-Brown, Mehvish Zahra Alavi, Sally Edgington

**11:20-12:00**
### IR and acute tips, part 3: lecture
Wajiha Arshad and Emeke

**12:00-12:15** Short break

**12:15-13:00**
### IR and acute tips, part 4: workshop
Wajiha Arshad and Emeke

**10:20** Coffee break

**13:00** Lunch & networking | Afternoon sessions begin at 14:00

WFPI: World Federation of Pediatric Imaging. Afternoon programme: page 7.

PROGRAMME / DAY 2

# Friday 6 November

Afternoon | Advanced imaging, practical ideas and closing reflections

## 01 Lead & Inspire

**14:00-14:25**
**Paediatric imaging in the age of AI: what comes next?**
Sivakumar Manickam

**14:25-14:50**
**Advanced clinical perspectives in rhabdomyosarcoma imaging**
Rick van Rijn

**14:50-15:15**
**Metabolic imaging in paediatric infection and oncology**
Timothy Cain

## 02 Educate & Empower

**14:00-14:30**
**Emergency imaging: children are not cats - paediatric polytrauma**
David Horton

**14:30-15:15**
**GU fundamentals and emergency imaging**
John Adu

## 03 Enrichment & Innovation

**14:00-14:25**
**Masterclass Series: No Doppler Signal. Are You Sure?**
Enrique Havinga

**14:25-14:50**
**Paediatric radiology: perfect for polymaths**
Michael Jackson

**14:50-15:15**
**What Star Trek taught me about leadership**
David Horton

| | |
|---|---|
| **15:15** | Afternoon break |

**15:40-16:00**
**The next image: who will we become?**
John Adu

**15:40-16:00 | Streams 2 & 3**

No scheduled session. Final thoughts with John Adu take place in Lead & Inspire. Move to the Main Foyer at 16:00.

| | |
|---|---|
| **16:00** | Move to the Main Foyer |
| **16:05** | Conference prize draw: £100 voucher |
| **16:10** | Closing panel & awards |
| **16:30** | End of conference |

Prize draw: visit every stand and scan your lanyard at each. Programme updated: 1 November 2026.

SCIENTIFIC PROGRAMME

# Curiosity. Discovery. Collaboration.

A foreword from the Scientific Programme Lead

## Dr Meghana Menon

Scientific Programme Lead

Dear Colleagues,

It is my great pleasure to welcome you to the scientific programme of BSPR Hull 2026.

This year, we received an impressive 66 abstract submissions, reflecting the enthusiasm, innovation and dedication to advancing paediatric radiology across our community.

Our scientific programme celebrates the breadth of work taking place within our specialty, from original research and clinical audits to educational initiatives and quality improvement. Every submission represents curiosity, commitment and a willingness to share knowledge.

My sincere thanks go to our scientific judges and reviewers, whose time, expertise and thoughtful assessments have been invaluable in shaping the programme. I am equally grateful to EIZO for supporting our e-poster presentations and helping us showcase the excellent work of our contributors.

To everyone who submitted an abstract, thank you. To those presenting, congratulations! I hope this meeting provides an opportunity to exchange ideas, receive constructive feedback and build lasting collaborations.

As you explore the oral presentations and e-posters, I encourage you to engage not only with the science but also with the people behind it.

After all, scientific progress begins with curiosity and flourishes through collaboration.

Enjoy the meeting!

FACULTY

# Meet our faculty

Alphabetical by first name | Speaker profiles and contributions

## Adam Davies

Consultant Neuroradiologist
Hull University Teaching Hospitals

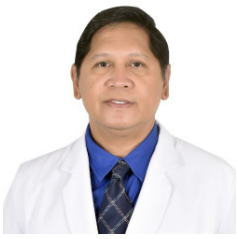

Adam presents Neuro: From Embryology to MRI, contributing practical neuroradiology teaching to the Educate & Empower programme.

## Amaka C Offiah

Professor of Paediatric Musculoskeletal Imaging and Honorary Consultant Paediatric Radiologist
University of Sheffield and Sheffield Children's NHS Foundation Trust

Amaka brings clinical and research expertise to safeguarding discussions, professional leadership and the judging of scientific presentations. She also features in the Leadership Journey session.

## Bernard F. Laya

Section of Pediatric Radiology
St. Luke's Medical Center, Philippines

Bernard contributes international perspectives on paediatric imaging, planetary health and the future radiologist. He also joins the judging panel for scientific papers.

## Clare Rainey

Lecturer and Researcher
School of Medicine, University College Cork, Ireland

Clare explores planetary health in radiology and shares perspectives on academic careers and fellowships, connecting education, research and the changing responsibilities of imaging professionals.

## David Horton

Consultant Paediatric Radiologist
Hull University Hospitals NHS Trust

Conference President and Lead & Inspire stream lead, David contributes to global perspectives, artificial intelligence, paediatric trauma and leadership discussions. He also welcomes delegates to his home city.

FACULTY

# Our faculty

Alphabetical by first name | Speaker profiles and contributions

## Enrique Havinga

Paediatric Radiologist
AZ Oostende - General Hospital Ostend, Belgium

Enrique shares a personal journey exploring healthcare in Colombia, contributes to the Future Radiologist panel and leads a masterclass on Doppler ultrasound.

## Giedre Kavaliauskiene

Consultant Abdominal Radiologist
Oslo University Hospital (Ullevål)

Giedre leads a masterclass on leadership without the title, exploring how radiologists can influence services, colleagues and patient care beyond formal management roles.

## Hamzaini Abdul Hamid

Professor of Radiology
Universiti Kebangsaan Malaysia

Hamzaini brings an international perspective through a radiology reasoning masterclass and the World Federation of Pediatric Imaging global collaboration roundtable.

## Hiten Joshi

Consultant Radiologist
Hull University Teaching Hospitals NHS Trust

Hiten presents Paediatric Head and Spine Trauma within the Educate & Empower programme, supporting practical, clinically relevant learning.

## Jaishree Naidoo

CEO and Co-Founder
Envisionit Deep AI

Jaishree contributes to artificial intelligence, global collaboration and Women in Leadership. Her participation in the Future Radiologist panel is provisional.

FACULTY

# Our faculty

Alphabetical by first name | Speaker profiles and contributions

## Joanna Kasznia-Brown

Consultant Radiologist, President BSPR
British Society of Paediatric Radiology

Joanna chairs the World Federation of Pediatric Imaging global collaboration roundtable and contributes to global perspectives, professional membership and women in leadership.

## John Adu

Consultant Paediatric Diagnostic and Interventional Radiologist
St George's Hospital, London

John teaches genitourinary fundamentals and emergency imaging. He also delivers the closing reflections, The Next Image: Who Will We Become?, on the future direction of paediatric imaging.

## Kish Mankad

Clinical Director for Radiology
Great Ormond Street Hospital for Children

Kish leads teaching on brain tumours and advanced neuroimaging, and contributes to discussions on artificial intelligence and global collaboration in paediatric imaging.

## Meghana Menon

Consultant Radiologist (Locum)
Hull University Teaching Hospitals NHS Trust

Meghana leads the Enrichment & Innovation stream and the scientific programme. She presents case-based teaching and chairs the scientific papers session, supporting research and shared learning.

## Mehvish Zahra Alavi

Consultant Paediatric Radiologist
Royal Hospital for Children, Glasgow

Mehvish contributes to Global Perspectives in Paediatric Imaging, Leadership Journey, Future Radiologist and Women in Leadership, exploring professional development and the changing role of radiologists.

FACULTY

# Our faculty

Alphabetical by first name | Speaker profiles and contributions

## Michael Jackson

Consultant Paediatric Radiologist
Royal Hospital for Children and Young People, Edinburgh

Michael chairs the planetary health discussion and leads sessions on emergency imaging and the breadth of a paediatric radiology career, bringing clinical and professional perspectives.

## Michael Roberts

Paediatric Radiology Consultant
Hull University Teaching Hospitals NHS Trust

Michael leads the Educate & Empower stream and the conference social programme, bringing colleagues together for practical learning and the BSPR 2026 Global Street Feast.

## Ram Senasi

Consultant Paediatric Radiologist | Conference Director
Hull University Teaching Hospitals NHS Trust

Conference Director Ram brings together clinical education, leadership and innovation. He welcomes delegates and contributes to professional membership discussions and academic career pathways.

## Rick van Rijn

Paediatric Radiologist
Department of Radiology and Nuclear Medicine, Amsterdam UMC

Rick contributes expertise in suspected physical abuse, musculoskeletal fundamentals and advanced rhabdomyosarcoma imaging, combining specialist knowledge with discussion of challenging clinical decisions.

## Sally Edgington

Chief Executive Officer
AXREM

Sally joins the Women in Leadership discussion, bringing a medical technology sector perspective to representation, collaboration and leadership across the imaging community.

FACULTY

# Our faculty

Alphabetical by first name | Speaker profiles and contributions

## Samantha Negus

Consultant Radiologist
East Surrey Hospital

Samantha presents an emergency imaging session exploring the cases that keep radiologists awake at night and serves as a judge for the scientific paper presentations.

## Sivakumar Manickam

Consultant Paediatric Radiologist and Lead Paediatric Radiologist
Mid and South Essex NHS Foundation Trust

Sivakumar contributes to artificial intelligence, planetary health and neonatal chest imaging, and leads The Image Beyond the Image masterclass.

## Stephen Harden

President
The Royal College of Radiologists

Stephen delivers the keynote on the RCR in the twenty-first century and joins the discussion on professional membership and the evolving needs of radiologists.

## Tejas Kapadia

Consultant Paediatric Radiologist, Research Lead and QSI Lead
Royal Manchester Children's Hospital

Tejas presents Body Tumour and Mimics: Misses and Tricks and contributes to The Road to Consultancy townhall, bringing clinical, research and quality improvement perspectives for emerging radiologists.

## Thomas Hulme

Managing Partner
Abbleys Solicitors

Thomas joins the safeguarding discussion on suspected physical abuse, adding a legal perspective to professional responsibilities, communication and multidisciplinary child protection.

FACULTY

# Our faculty

Speaker profiles and interventional radiology faculty

## Timothy Cain

Paediatric Radiologist and Nuclear Medicine Specialist
The Royal Children's Hospital, Melbourne

Timothy contributes to safeguarding, chest fundamentals and global collaboration, and presents advanced perspectives on metabolic imaging in paediatric infection and oncology.

## Trevor Gaunt

Consultant Paediatric Radiologist
University College London Hospitals

Trevor contributes to The Road to Consultancy townhall and chairs the Future Radiologist panel, exploring career development, professional identity and preparation for changing clinical practice.

## Wajiha Arshad

Consultant Radiologist
Hull University Teaching Hospitals

Wajiha contributes to Women in Leadership and the organising committee. She also joins Emeke to deliver the IR and acute tips lecture and practical workshop on Friday.

INTERVENTIONAL RADIOLOGY FACULTY

## Wajiha Arshad and Emeke

Friday 6 November | Stream 3: Enrichment & Innovation

**11:20-12:00**

**IR and acute tips, part 3**

THURSDAY EVENING

# Global Street Feast

Food, music and time together | Thursday 5 November, 19:30

## Dr Michael Roberts

Conference Social Programme Lead

### Join the gala evening

Thursday 5 November
**19:30**
DoubleTree by Hilton Hull
**£50 + VAT per person**

Scan to book, or speak to the Convenzis team.
**Dress: be unique, be yourself.**

Dear Friends and Colleagues,

A BSPR meeting wouldn't be complete without an opportunity to unwind, reconnect with old friends and make a few new ones!

With colleagues joining us from across the UK and around the world, we wanted this year's gala evening to celebrate the wonderful diversity of our community. And what better way than through food, music and good company?

That's how our Global Street Feast was born.

Rather than a traditional sit-down dinner, we've created a relaxed evening inspired by street food from around the world. Different flavours, different cultures, all coming together in one place.

And this year, we're adding something a little different to the BSPR experience - a DJ!

Whether you're planning to dance the night away or simply enjoy the atmosphere with friends, we hope you'll join us for an evening of laughter, conversation and perhaps a few memorable dance moves!

After all, the friendships we build are just as important as the knowledge we share.

Great food. Different cultures. One community.

See you on the dance floor!

**Dr Michael Roberts**

SPONSORS & INDUSTRY PARTNER

# Thank you to our supporters

Meet the organisations supporting BSPR Hull 2026

## GE HealthCare

GE HealthCare provides medical imaging, ultrasound, patient care and pharmaceutical diagnostic technologies, alongside software and artificial intelligence solutions. Its portfolio supports clinicians across diagnosis, treatment and monitoring, with services and education designed to help healthcare providers use these technologies effectively.

## Everlight Radiology

Everlight Radiology delivers urgent, sub-specialist and routine reporting through a global network of more than 800 consultant radiologists. It supports healthcare providers across the UK, Ireland, Australia and New Zealand. Its round-the-clock model uses a globally dispersed workforce, enabling reporting, IT and operational support every day of the year without asking radiologists to work overnight. Its mission is to improve access to specialist expertise and enable timely, effective treatment.

## Philips

Philips is a health technology company working with healthcare providers across the UK and Ireland. Its innovations aim to give professionals more time to focus on patients, while supporting care that considers both people and the planet. Responsible and sustainable innovation is central to its approach.

## EIZO

EIZO specialises in visual technology, with more than 50 years of experience in monitors, clinical applications and image integrity. It designs and manufactures medical-grade displays to support diagnosis and offers solutions across radiology, pathology, operating theatres and other hospital settings. Its team supports both system upgrades and new installations, tailoring display solutions to different imaging requirements. EIZO also supports the BSPR Hull 2026 e-poster presentations.

Company profiles are concise summaries. Select a profile in this PDF to visit its source.

SPONSORS & INDUSTRY PARTNER

# Thank you to our supporters

Meet the organisations supporting BSPR Hull 2026

## FUJIFILM Healthcare UK

Fujifilm brings more than 91 years of experience in healthcare and imaging. Its endoscopy solutions are designed to improve access to services, support early diagnosis and treatment, and help clinicians make a difference in daily practice. Through technology, knowledge and collaboration, Fujifilm aims to improve quality of life and contribute to a healthier society.

## Canon Medical

Canon Medical develops healthcare solutions designed to improve workflow and productivity. Its Made for Life philosophy focuses on customers' needs and on better opportunities for patient care. The company combines performance, comfort and safety with efficient clinical working environments, aiming to improve the experience of both patients and healthcare professionals.

## Xiel

Xiel distributes specialist medical technologies across the UK and Ireland in diagnostic radiology, nuclear medicine and radiotherapy. It combines clinical expertise with support tailored to paediatric imaging teams. Its partners include Hyperfine, Diacor, Sun Nuclear, MVision, C-Rad and RTI. The Hyperfine Swoop portable MRI system brings imaging to the bedside with an open design, while the Diacor Zephyr hoverboard supports patient transfers and positioning. Visit the team to discuss imaging technology, patient comfort and practical workflow needs.

## AXREM | Industry partner

AXREM represents UK suppliers of diagnostic imaging, radiotherapy, healthcare IT and care equipment, including patient monitoring. Its members work alongside radiologists, radiographers, oncologists and other healthcare professionals. The association provides a collective voice on regulatory and technical issues, supports innovation and evaluation of new technologies, and promotes collaboration to improve the quality and efficiency of patient care.

Company profiles are concise summaries. Select a profile in this PDF to visit its source.

ACKNOWLEDGEMENTS & LOCAL HOSTS

# A warm Hull welcome

With thanks from Dr Wajiha Arshad and the organising committee

## With thanks & appreciation

BSPR Hull 2026 has been shaped by the generosity, expertise and enthusiasm of many people and organisations. We are grateful to everyone who has helped bring our community together.

Our sincere thanks go to the BSPR Executive Committee, our conference faculty, session chairs, scientific judges and reviewers, volunteers and delegates. We are especially grateful to Convenzis for their support in organising and delivering the meeting.

We also thank HEY! Hull and Hull's Angels for helping us share the warmth and character of the city, and American Chip Spice for adding a distinctive taste of Hull to the delegate experience.

**Dr Wajiha Arshad | Organising Committee Member**

## Meet Hull's Angels

Colleagues from Hull Radiology, here to welcome visiting speakers and international faculty, share their pride in the department and point you in the right direction.

Ask about the conference, the local radiology training programme or where to find a friendly face.

**Your Hull's Angels**

Dr Marjorie Teo
Dr Kathryn Olsen
Dr Emeke Igwe
Dr Edem Jessica Akoto
Dr Halima Mohamud
Dr Julia Jesuthasan
Dr Mohamed Awad Alkareem

## Meet HEY! Volunteers

Local volunteers who share their knowledge, enthusiasm and pride in Hull, helping visitors feel at home and discover what the city has to offer.

Ask them about places to eat, local attractions, directions, transport or ideas for exploring Hull between sessions.

**Hull's Angels are your friendly faces for the conference. HEY! Volunteers are your friendly faces for the city.**

Discover HEY! Volunteering

**Two wonderful teams. One warm Hull welcome.**

DELEGATE INFORMATION

# Your conference. Your city.

Everything you need for your visit to Hull

## DoubleTree by Hilton Hull

24 Ferensway, Hull, HU2 8NH | 5-6 November 2026

### At the conference

For registration, ticket, accessibility and room queries, or the latest programme updates, speak to the Convenzis team at the help desk.

### Prayer & reflection

A multifaith prayer room will be available on site. Please ask the Convenzis team for its location.

### Dietary arrangements

Catering will be predominantly vegetarian, with vegan options and chicken, lamb and seafood choices also available. No pork or beef will be served. Halal- or kosher-certified meals cannot be provided.

### Allergens & specific diets

Speak to the Convenzis team and catering staff before selecting food if you have an allergy or dietary requirement. The absence of allergens or cross-contact cannot be guaranteed.

### Getting around

Hull Paragon Interchange is the main rail and bus hub. Much of the centre is walkable. Allow extra time for evening travel and check local services.

### Latest programme & bookings

Open the BSPR Hull 2026 event page

### St Stephen's Shopping Centre

A convenient city-centre stop for shops, cafés, food and essentials, close to Hull Paragon Interchange.

### Hull Old Town

Historic streets, independent places to eat and atmospheric pubs, ideal for a stroll after the meeting.

### Hull Marina & Fruit Market

Waterside walks, restaurants and a lively creative quarter.

### The Deep

Hull's landmark aquarium overlooking the Humber, if you have time to explore.

### Museums Quarter

Discover Hull's history through its city-centre museums. Check individual opening times before visiting.

### Humber Bridge

An iconic local landmark if you have time to venture beyond the centre.

Hull tours & trails

Hull Museums guided tours

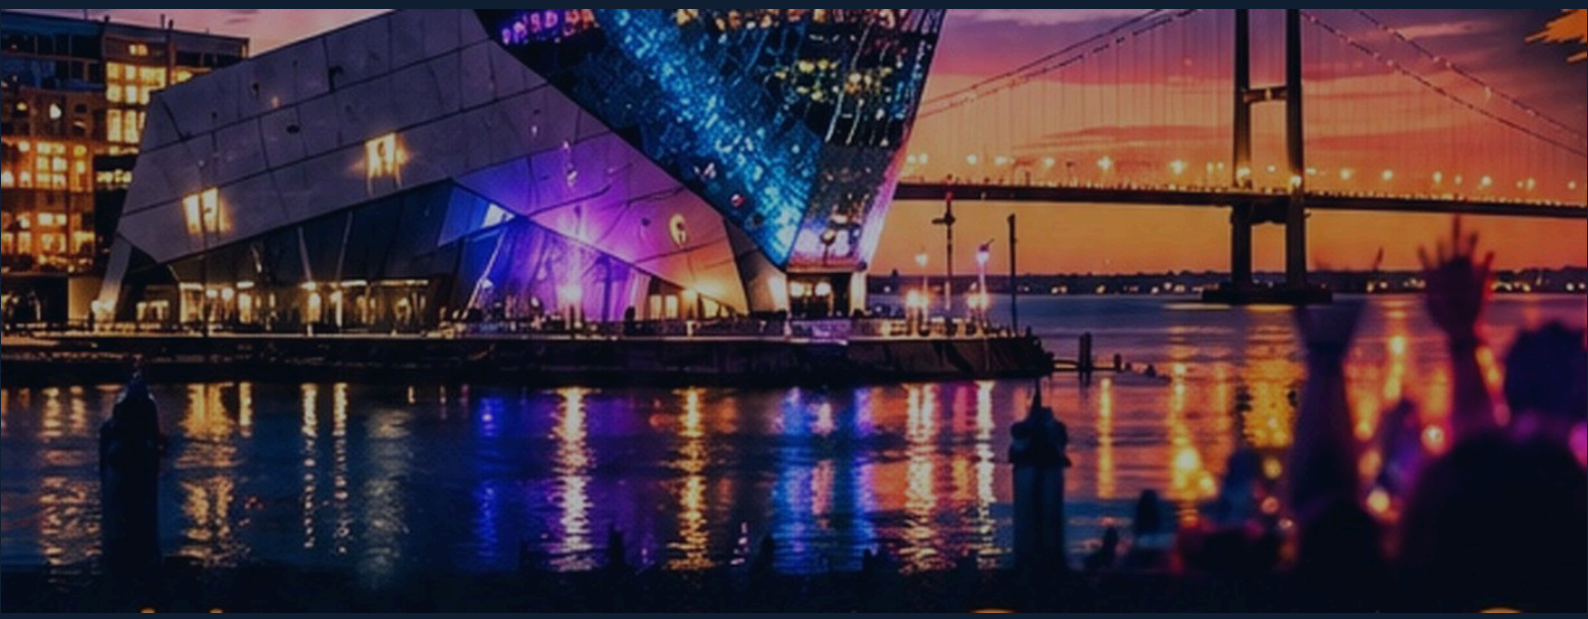

### Staying in Hull

Delegate rates: DoubleTree by Hilton Hull, Holiday Inn Express Hull and Holiday Inn Hull Marina. Booking details are provided after registration; rates are subject to availability.
